Appropriate Use Criteria (AUC). Beginning in 2020, if you order Medicare Part B advanced diagnostic imaging services, you must consult appropriate use criteria through a qualified Clinical Decision Support Mechanism (CDSM).

4

Appropriate Use Criteria (AUC) for Advanced Diagnostic Imaging

- Beginning in 2020, if you order Medicare Part B advanced diagnostic imaging services, you must consult appropriate use criteria (AUC) through a qualified Clinical Decision Support Mechanism (CDSM).
- It has been voluntary until 2020.
- QQ Modifier - Ordering professional consulted a qualified clinical decision support mechanism for this service and the related data was provided to the furnishing professional.

LIFEPOINT HEALTH

5

Are You Ready for AUC?

- How will the modifier be applied and who will do it?
- What advanced diagnostic imaging services are included?
 - Diagnostic magnetic resonance imaging
 - Computed tomography
 - Nuclear medicine (including positron emission tomography)
- A CDSM is an interactive, electronic tool for clinicians that gives the user AUC information. You can use this information to make the most patient-appropriate treatment decision for the specific clinical condition.
